

Restrictions and Important notes.

## ZONE 01 Prologue ~The Ever-Changing Earth and Life~

### ■Restrictions

The contents may include scenes of intense flashing light. In extremely rare cases, these flashes trigger seizures, loss of consciousness or other symptoms of photosensitive epilepsy in Guests. It is possible that these flashes may cause convulsions or loss of consciousness even in Guests who have not had these experiences to date.

## ZONE 02 Discovery Lab

~The Laramidia Continent Revealed through Science~

※Regarding the Spatial Reality Displays(3D videos) in the exhibition

For safety reasons, three Spatial Reality Displays set up in the Discovery Lab are not available for children aged 5 years old and under. However, such age restriction doesn't apply to other facilities in this exhibition, so children aged 5 years old and under are still welcome to visit our exhibition.

### ■Persons subject to usage restrictions / Notes

- This demonstration is not suitable for the guest who is 5 years old and under. ※1
- Paying close attention to the condition of children by their guardians is required.
- In rare cases, unpleasant symptoms such as eye fatigue and tiredness may occur while watching 3D images.
- If you experience any unpleasant symptoms, please stop watching immediately and take a sufficient break. ※2
- Please consult with the staff if you do not recover even after taking a breaks. ※3
- There are individual differences in 3D experience.

※1 : Vision of children (especially 5 years old and under) is in the developmental stage .

※2 : It depends on the guest and individual physical condition such as lack of sleep and fatigue.

※3 : The length of break required depends on the individual condition.

## ZONE 04 The Cretaceous Theater

~The World Where Dinosaurs Live~

※ In the theater, it is divided into floor vibration areas and no floor vibration areas.

For safety reasons, children 6 years old and under and people who wear medical equipment are subject to usage restrictions and have to watch the 3D content in no floor vibration areas as demanded.

■ Users subject to floor vibration areas

This demonstration is not suitable for the following guests:

- Guest who is 6 years old and under.
- Guest with a medical device such as cardiac pacemaker, defibrillator, and variable pressure shunt for the hydrocephalus treatment.
- Guest with a weak heart.
- Guest who is under medical treatment or in poor physical condition.
- Expecting mother.
- Guest who has an illness or a symptom which might be exacerbated by vibration stimulation.
- Guest who wears shoes with excessively high heels. (high heels, pin heels, platform shoes, etc.)
- Guest under the influence of alcohol.
- Guest who does not fulfill safe viewing requirements (judged by the staff).
